Dear Michael:

Thank you for the great job you did on the CD. You made my music come to life in a way that exceeded my expectations.

You are a very gifted composer, arranger, and performer. Your creative talent is evident in the introductions to the songs, and in the musical interlude you wrote for "You Are Not Alone." The instrumental version of that song is a masterpiece of improvisation.

Your arrangements for the various instruments, cello, flute, oboe, guitar, were excellent, as was your choice of musicians and singers. It was a real treat to be present among such talented musicians.

You made the journey from concept to completion very enjoyable and educational.

I look forward to additional projects with you in the future.

Sincerely,

Donald W. Gillis
